PATHS OUT OF HOMELESSNESS

COMMUNITY SUCCESS

High Level of Collaboration

Our community put collaboration into action, relying on and working with one another

Best-Fit Approach

One size does NOT fit all here; we give people the intervention they need to get back on their feet again

Landlord Engageent

We are a national model for landlord engagement and expanding access to housing

New Local Resources

City of Fort Worth has invested in programs that work and can be expanded

IMPACT OF POLICY CHANGE

▶ Federal Policy Change

- President Trump's Skinny Budget
- Consolidation of ESG and COC
- Proposal to cut 85% of HUD staff, with grants to mirror cuts
- Community has already had federal funding eliminated
- Planning for partial and full loss of funding

▶ State Policy Change

- Severely restricting where homeless services can be provided
- Strengthening state camping bill- more punitive for cities
- Near total elimination of due process for renters
- Strengthening involuntary commitment laws

KEY TAKEAWAYS

11% increase in annual census

Point in Time Count showed an annual increase of 11% from 2024

Funding decrease will lead to increase in homelessness

We cannot serve more people with less funding- we need additional or at least level funding for the system to work

High level of coordination and cooperation

Nonprofits, municipalities, and other groups work together well to be responsive and nimble

Half of people need short-to-medium assistance

Homelessness is a financial issue for most people- they cannot make ends meet with the increased cost of living

We need your help!

We cannot continue to respond without community support- stay informed and be part of the solution!
